

Experts in the field

At P&L, we've worked hard to create a business which can deliver specialist consultation on a vast range of technical and practical agri-business applications.

We are an independent team of likeminded and enthusiastic professionals with a wealth of skills and knowledge across many different disciplines. Our combined resources offer unparalleled scope for improvements in your agribusiness.

As our client base grows, so does our experience, something you can reap the benefits of by becoming part of our agribusiness community.

If you have any questions or any particular issue you would like to discuss, we would be more than happy to hear from you.

Our dedicated team ensures that you get the advice you need to make the right decisions, helping develop sustainable and prosperous farm businesses.

Our aim is to provide a personal service backed up by professional knowledge and a wealth of experience.

We are equipped to provide an unparalleled network of support and advice you can depend on. We recognise the importance of a hands on approach and are committed to maximising the potential of your business.

By working closely with farmers and growers locally and across the UK, we provide a wide range of products and services to meet the needs of an ever changing industry.

We provide a fully integrated approach to consultancy offering a diverse range of services and advice to both conventional and Organic agri-business.

From strategic planning and diversification to feed advice and technical support, P&L have the knowledge you need to secure a future for your business and encourage profitable growth.
